

## INSTRUCTIONS TO SET UP THE HW5

1. Download all the contents of the HW5 folder. Once you download it, make a folder and name it '**HW5**' and copy the downloaded contents to this folder. Now your directory structure should look like this.
  - **HW5**
    - **assignment5.ipynb**
    - **Instructions\_to\_set\_up\_HW5.pdf**
    - **train.csv**
    - **test.csv**
    - **pre\_trained\_user\_emb**
    - **pre\_trained\_item\_emb**
2. Now, place the HW5 folder to your google drive. Make sure to verify or change the path of HW5 in the *assignment5.ipynb* file. Instructions on which code cell you will have to change the path is mentioned in the assignment5.ipynb
3. You can now open the **assignment5.ipynb** and begin doing your homework!

## SUBMISSIONS

Once you finish the assignment on the google colab, follow the below instructions.

1. In your Google Colab, **Runtime>Run all**.
2. Once every cell has finished running, verify that all the outputs are visible.
3. **File>Print>Save as pdf**. The pdf is not very well rendered at a few places, but that's fine.
4. Now, submit **ONLY** the following files on the canvas.
  - **assignment5.ipynb**
  - **assignment5.pdf**
